

MSE Receives STMC Certification

VAN NUYS, CA – In August, Micro Solutions Enterprises (MSE) completed the rigorous training program conducted by a certified I-ITC trainer. MSE was verified compliant of the applied combined test method criteria and was given STMC Certified status. Only a small fraction of companies in this industry have earned the right to display the STMC logo on their products, packaging, and marketing materials. MSE is proud to join this group intent on the standardization of product testing methods within our industry.

Standardized testing is a series of integrated tests that provide a method of evaluation in an all-in-one format. The testing is performed in a logical sequence where failure of any segment requires termination of the testing to ensure integrity to all facets of the qualification process. The testing includes:

- Package Integrity per: ISTA 1A
- Standard Practice for Determining Toner Usage for Printer Cartridges, (ASTM F 1856)
- Density Measurement, Geometric Conditions for Reflection Density, (ANSI IT2.17)
- Standard Test Method for Evaluation of Larger Area Density and Background on Electro-photographic Printers (ASTM F 2036)

The International Imaging Technology Council

(I-ITC) is a non-profit trade association that endeavors to represent the interests of the world's imaging supplies industry including: computer / office machine supply, retail, repair, networking, and remanufacturing. The I-ITC seeks to unify industries such as remanufacturers, distributors, and resellers/dealers. They also represent the industry through legislative and legal matters and advance the industry through reliable testing standards and product enhancement programs such as the Standardized Test Methods Committee (STMC).

MSE manufactures and distributes a full line of compatible toner cartridges, MICR toner cartridges, inkjets and thermal transfer ribbons. MSE's manufacturing capacity now exceeds 300,000 toners and 500,000 inkjet cartridges per month. MSE owns and operates more than 253,000

square feet of space at its facilities in California and Pennsylvania as well as additional distribution facilities in Mexico, Canada and Holland.

The company offers full solutions for outsourcing, private labeling, private packaging and blind drop shipping. MSE also offers a suite of high-end marketing tools and extensive product and sales training.
